AyAKITCHENS.COM

SINGLE FAMILY HOMES

WHY AYA?

AyA's wide range of design savvy product offerings coupled with the scale and technical sophistication of its operations make AyA the perfect choice for projects large and small.

AyA means design – literally. AyA is Japanese for design and design is both the foundation and driving vision of our business. The quality and value of our product is a function of design, as we believe that great design is not only the look, feel and style of the final product but as importantly, the design of the processes that enable it.

Our commitment to quality has made us one of the first in our industry to become third party certified by the Woodmark Quality System – the first quality management specifically designed for the wood products manufacturing industry. This certification reviews all materials and standard operating procedures and is audited yearly to ensure quality standards are being met.

AyA cabinetry is CARB 2 compliant and also quality certified by the Kitchen Cabinet Manufacturers Association (KCMA). The KCMA has also certified AyA's cabinetry as environmentally friendly under its Environmental Stewardship Program.

ABOUT AYA KITCHENS

The kitchen is today's living room - it's the heart of the home. At AyA we believe that a great kitchen starts with you.

Every AyA kitchen is designed and made just for you. Unlike other kitchen manufacturers we don't assemble from stock, we produce a unique kitchen for each and every customer. With AyA's mass customization approach, you get the best of both worlds – the personalization of a custom kitchen with the value and quality that comes from a 150,000 sq. ft. state-of-the-art production facility.

AyA is committed to staying on the cutting edge of design and providing the best customer service experience possible. A lot of things have changed since AyA opened its doors back in 2001: technology, styles, materials, new locations and much more, but the one thing that never changes is our dedication to delivering exceptional value and customer service.

By combining old world craftsmanship and attention to detail with high tech manufacturing processes AyA offers innovative, quality cabinetry at competitive, manufacturer direct prices. Discover how AyA's incomparable selection of colours, styles and accessories can help you create your ultimate living space.

CONDOS & APARTMENTS

AYA ADVANTAGE

As pioneers of mass customization, AyA's state-of-the-art cabinet manufacturing facility enables us to produce the range of product and attention to detail demanded by the finest builders and designers while offering the quality and savings that result from producing on a mass scale for customers across North America.

Our ability to tailor make each and every customer's order, combined with turnkey service, starting with superior in-house designers through to professional installation, means AyA provides an unsurpassed level of service to all of our customers.

This is the AyA Advantage.

AYA KITCHEN UPGRADES

For those looking to add a little extra oomph to their kitchen, AyA offers a variety of different options to help upgrade your space. Not to be confused with accessories or ornamentation, upgrades apply strictly to how the kitchen is built (boxes, doors, drawers, hinges & finishes). Below are just a few of our top choices for upgrading your kitchen.

DRAWER SELECTIONS

AyA customers have a choice of four options when it comes to drawers: standard, White full extension double-walled, wood or solid birch dovetail. For a contemporary European look, our double-wall slim drawer system has a soft close mechanism and full extension rollers that allow total interior access. Wood and dovetail drawers run on state-of-the-art European anti-slam slides for operational excellence with the elegance of wood.

FULL-EXTENSION DOUBLE-WALL DRAWER

WOOD DRAWER

WOOD DOVETAIL DRAWER

HIGH QUALITY COMPONENTS ARE STANDARD

Since the cabinetry makes the kitchen, AyA raises the bar by utilizing only high quality components.

FRAMELESS CONSTRUCTION

AyA cabinets maximize interior storage and easy access with frameless, modular construction. Interior melamine gables and shelves are stain and moisture-resistant and never require refinishing.

EUROPEAN HINGES

Clip on, concealed European hinges with 110° opening and six way adjustment allow for easy removal of doors for virtually effortless interior cleaning or shelf adjustment.

DOUBLE WALL SOFT CLOSE DRAWERS

AyA's standard drawers are German manufactured, 3/4 extension white double wall, soft close drawers. AyA is one of the first in our industry to provide these drawers as standard.

FURNITURE FINISHES

A broad range of low luster, environmentally friendly finishes, all with AyA's exclusive stains and paints. This ensures non-fading, hard wearing cabinet doors for the long term.

FLUID COLOUR - INSIDE & OUT

All AyA wood door cabinets have matching veneer finished ends. In addition, interior cabinet edges are colour-coordinated to doors for a seamless look.

A LEG UP

Behind the traditional toe kick gracing the bottom of AyA's cabinets are engineered, adjustable legs. Wood components are raised above floor level, minimizing potential water damage to cabinetry.

THIRD PARTY CERTIFIED

AyA's standard cabinetry is environmentally friendly certified by the KCMA Environmental Stewardship Program. AyA's quality is third party certified by the Woodmark Quality System.

SOFT CLOSE DOORS AND DRAWERS

The soft close revolution has moved into a new phase with the introduction of soft close hinges. AyA's integrated soft close hinge is a must have item in any kitchen. They have an invisible and completely integrated anti-slam mechanism that ensures a soft, gentle close and also works as a safety feature with children.

Each of AyA's upgraded drawer systems also feature a soft-close mechanism that gently pulls the drawer in the last 4-5 inches, in slow motion, to a complete close. Silent and sturdy, these drawers are some of AyA's most popular upgrades.

GREEN DESIGN

GREEN DESIGN

AyA's commitment to sustainability is exemplified in AyA's Green Design initiative. AyA Kitchens is continually striving to surpass environmental and health standards and help their customers create healthier environments, from CARB2 compliant cabinetry to water based finishes to ensure healthy homes to upcycling material and solar power for a better environment.

For more info on all of our green design initiatives, please visit: AyAkitchens.com.

AYA PLUS UPGRADES

AyA Kitchens is proud to introduce our latest line of cabinetry. AyA+ is all the incredible range of product and styles offered by AyA plus the opportunity to further customize: AyA plus custom paint colours, AyA plus custom cabinet sizes, AyA plus rift cut white oak, AyA plus your imagination. With AyA+ the possibilities are limitless.

MODERN PROFILES

ANTHRACITE DRAWERS & ROLL-OUTS

AyA Plus drawers and roll-outs are full extension with soft-close anti-slam system with a contemporary square edge profile and premium anthracite finish. A selection of drawer inserts are also available to provide a custom and organized kitchen setup.

Access and utilize the entire drawer for a more functional kitchen experience.

EXCLUSIVE DOORS

AyA'S NEW CONTEMPORARY NARROW RAIL DOORS IN WALNUT & WHITE OAK

Exclusive New Contemporary doors will be available in AyA Plus. AyA's popular narrow rail shaker doors will expand in selection to Walnut and rift-cut white oak. AyA's New Contemporary collection fits neatly between AyA's Urban and Transitional collections. Refined rails create a visual focal point with understated elegance and now with higher end materials.

FRESH INTERIORS

LINEN PRINT CABINET INTERIORS

AyA continues to elevate industry standards by offering fresh and different options. AyA Plus cabinet interiors are available in a linen print finish. Add a touch of contemporary luxury to the interior of your cabinets with the warm look of linen.

CUSTOM COLOURS

CUSTOMIZED CABINET COLOURS

Design your kitchen with your very own personalized colour. AyA Plus will open the full colour spectrum and allow customers to create any custom colour. Fine tune a colour to the perfect tint, tone and shade just as you desire.

ALL CABINET SIZES

CUSTOM CABINET SIZES

AyA's state-of-the-art cabinet manufacturing facility enables us to produce the range of product and attention to detail. AyA Plus will take it a step further by offering all custom cabinet sizes. A fully custom kitchen space will have a more tailored and refined aesthetic without any compromises or limitations.

CLEAN DETAIL

ESSENTIAL CABINET DRILLING ONLY

AyA Plus is about customization, even down to the drilling. Standard cabinetry include visible drill holes from installation. AyA Plus will provide essential cabinet drilling only, the installation and end result will look cleaner and sleek with a level of detailed polish.

KITCHEN ORGANIZATION

There are many accessories you can add to your kitchen to not only make your dream space visually appealing, but also a functional work space making life in the kitchen much simpler and less cluttered. Whether there is one chef or many in the household, organizing your recipes, pots and pans as well as ingredients helps to create a clean space that is easy for all users to navigate and enjoy.

LIFT-UPS

Upper cabinets that open up opposed to out are aesthetically pleasing as well as practical. Lift-ups allow for easy access to stored dishes or appliances and have a soft close mechanism to prevent slamming when they are being closed.

PULL OUT TABLE

AyA's pull-out table is the perfect solution for small and challenging spaces or condos. The sturdy dining table seats 4 and folds to hide neatly into a drawer when not in use. The pull-out table is available in a variety of finishes and materials to suit your tastes and needs.

CORNER SOLUTIONS

Functional accessories that solve the challenges of hard to reach blind corners, such as the extraordinary magic corner, help to maximize space while minimizing the struggle to reach stored items. The swiveling and extending of these inserts makes otherwise dead corners functional and makes the items stored within easily reachable.

DRAWER ORGANIZERS

AyA offers a range of practical inserts for organizing and dividing drawer contents. Inserts can be used in utensil drawers with cutlery dividers, or can be used in larger cabinets for organizing dinner plates, soup bowls, etc.

WASTE & RECYCLING CENTRE

The perfect solution for stashing and separating house hold waste and recycling. The double bin pull out is easily removable for disposal as well as bin clean up and is neatly tucked behind the cabinetry with no indication of the contents.

ROLL-OUTS

Helping to maximize the kitchen's storage space, roll-outs are perfect for deep pantries or base cabinets, ensuring that food items don't get forgotten about in the back of the cabinet. They're also great for bringing heavier items out to where they can be more easily accessed.

PULL-OUTS

Perfect storage racks for spices and canned goods, pull out accessory cabinets allow for plentiful storage in smaller spaces, making all stored items easy to reach.

Pull-out pantries have customizable shelves that are sturdy and can be used at different heights.

KITCHEN ORNAMENTATION

It's all in the details when it comes to creating the perfectly designed kitchen. Height, depth, length and detailed focal points are created using various accessories that can be added to cabinetry to create that perfect feel for your space. No matter what style you have chosen for your kitchen, the feel can be achieved by incorporating any of the below features to your design.

CROWN MOULDINGS

Crown and cornice mouldings are decorative trim mounted to the top of upper cabinetry. Crown is added to lengthen the cabinetry and create height. Cornice moulding bridges between cabinets and ceiling.

RANGE HOODS

Range hoods and display cabinets are exquisite handcrafted furniture pieces that can make dramatic statements capable of transforming ordinary functionality into the extraordinary.

FLUSH TOE KICK

Flush toe kick is the ultimate finishing touch to your base cabinetry. It creates the appearance of built-in furniture, giving a superior look with elegant design features.

LIGHT VALANCE

Light valance is a decorative trim installed under upper cabinetry to decoratively hide under cabinet lighting. Valances are offered in different styles and sizes to complement the door style.

GLASS INSERTS

Create accent or display cabinets by adding glass inserts to upper cabinetry. AyA offers a wide variety of mullions and glass options including reeded, textured and beveled.

HARDWARE

Our wide variety of knobs and handles are offered in a range of materials to allow you near endless possibilities to accessorize your cabinetry.

WINE RACKS

Perfect in spaces geared towards entertaining, wine racks are a convenient and appealing way to store bottles. Incorporating wine racks to the end of an island is both attractive and functional.

POSTS

Decorative posts add a look of sophistication and elegance and range from the ornate to minimal simplicity. AyA's posts are offered in a variety of styles to complement the look of the cabinetry.

LED LIGHTING

Use LED lighting in cabinets with glass inserts or under cabinets to create drama or enhance task lighting. LED lights are extremely energy efficient and have a significantly longer lifespan than regular bulbs.

DECORATIVE LEGS

Add flair to base cabinets by upgrading the legs. Instead of covering up the bottom of cabinets with toe kick, AyA offers a variety of decorative legs in solid wood or metal options.

AYA MATERIALS

Selecting the right materials is an important step when renovating your kitchen. Certain wood species will have different grains, pitting, colour range and also age differently. An AyA designer can help you choose the right materials that will lend themselves best to your space and lifestyle.

OAK

Oak is a popular choice in cabinetry due to the durability of its moisture resistant wood. Characterized by strong, open graining, Red Oak has a natural range of colour from light to dark and mineral deposits within the grain increase its natural beauty.

MAPLE

Maple is a hard, tightly but subtly grained wood that can have colour variations from a pale white to a pale reddish tone. The finish that is chosen for maple can enhance its natural beauty, or reduce the subtle variations through the use of darker stains.

CHERRY

Cherry has a warm reddish undertone animated with bold grain patterning and enhanced with pitting which complements the warmth of historical settings. The appearance of cherry can vary dramatically with the stain colour applied to it, and has a natural tendency to darken over time.

PAINTED

Painted finishes are solid, opaque colour applications that do not reveal any grain characteristics and which can be accentuated with hand glazing. Painted finishes can be applied to MDF and/or wood doors. The natural expansion and contraction of wood doors with painted finishes can have the effect of emphasizing the joinery.

EXOTIC

AyA offers a variety of engineered exotic woods: Wenge, Zebrano, and White Oak all of which are sustainable woods that have the additional benefit of exceptional grain consistency. AyA also offers Walnut in a natural form that celebrates the beauty of its grain.

LAMINATE

Laminates come in a wide range of colours, finishes and textures. Whether mimicking the natural aspects of wood or as an alternative to paint, laminates are a versatile and economical option. AyA offers a variety of laminates including Thermofoil, standard and textured Melamine along with High Gloss and Matte Laminate.

AyA STYLES

From the timelessness of traditional design to cutting edge of modern design, AyA has a look that's perfect for you. AyA offers a range of products in four distinct styles: Urban, New Contemporary, Transitional and Classic. Each style allows freedom in creating that personalized living space to satisfy your needs. With a diverse range of door styles, materials and finishes we can help you create a kitchen that is stylish & functional.

URBAN

For the modern minimalist look in design, AyA's urban style features exotic woods, aluminum, sleek slab doors, and bold high gloss offerings in laminates or glass. The Urban style possibilities are endless and allows for experimentation in pairing different combinations. Make it your own and put your personal stamp of style on it. AyA's Urban style lends itself to be adventurous in creating a unique and personalized modern space.

TRANSITIONAL

Elegant in its simplicity, functional and timeless, the transitional style is at home in both traditional and contemporary settings. In AyA's transitional style you get the best of both worlds, think fusing the shaker tradition with contemporary materials and colours. Transitional balances the sleek and simple elements of contemporary design with an appreciation of a more formal classic aesthetic.

NEW CONTEMPORARY

The New Contemporary collection fits neatly between AyA's Urban and Transitional collections. As a middle ground between slab and shaker, this collection can be dressed up to lean more to the Transitional side, or it can be paired down to create a more minimal and modern feel. Refined rails create a visual focal point with understated elegance. AyA Kitchens has innovated an on trend middle ground with an extremely successful hybridization of these two styles.

CLASSIC

An elegance of both warm and richly finished wood combined with a sophistication of painted finished solid colours, AyA's Classic style features a lavish selection of oak, maple and cherry raised panel doors in a wide spectrum of stained, painted, glazed, antiqued and other hand finishes. Our classic moulding, posts and ornamentation variety will be sure to enhance your kitchen space with a warm, old world charm.

Are your tastes more eclectic? AyA's styles have a flexibility for those who want to experiment with mixing between categories. Whether in a kitchen, living room, bathroom or closet the opportunity to experiment can produce a fresh and dynamic space. Free your imagination and use your creativity to work with AyA to design your own unique combination.

AYA LUXE: SERIES 9-11

Those looking to create the ultimate in kitchen luxury need look no further than the doors in our Series 9 - 11 range.

AyA's decorative profile doors compose the luxurious high end offerings in these series. These doors are made of the utmost detail with options such as raised center panels, ornate outer profiles and are available in MDF, maple or cherry woods. Our wood doors are constructed with mitered corners, allowing for that extra touch of class to the elaborate design.

AyA's luxe doors are available in an array of finishes, including Artisan finishes; showcasing the fine details of the door profiles. These doors are also available in our two step staining process. Composed of rich elegant tones these stains create furniture like cabinetry in your home.

ARTISAN FINISHES

AyA's master finishers are experts in the fine art of glazing and blackening. Specialized hand finishing techniques are applied to each door in order to achieve a look of warmth and heritage to our line of vintage doors. This process helps bring out the base coat of each door and requires handcrafted artistry to give the cabinetry an old world feel. Care and attention to detail go into every piece to ensure a consistency of finish while maintaining the individuality of every piece.

GLASSWORKS

The key to AyA's Glassworks success lies in its versatility. Whether using these doors throughout the whole kitchen or using them as accents, Glassworks doors take a modern kitchen to the next level.

AyA's urban collection features many different glass door options. Not to be confused with glass inserts our glass door offerings are comprised of glass in an aluminum frame. Our glass doors are perfect for customers looking for another way to add a high-end, high gloss finish to an urban kitchen, as they add a touch of subtle elegance while maintaining clean sleek lines.

Glassworks doors come in grey, black or white lacobel and also a mirado (mirrored) tempered glass. The pairing of different styles and finishes allow for endless possibilities with our Glassworks doors.

AYA BATHS

Peace and serenity- a balance that AyA Kitchens strives to achieve for all our sophisticated, busy clientele. Nothing emphasizes this more than our spa baths - a great space to end a busy day and pamper yourself.

Whether it's the warmth and beauty of maple or cherry, or the soft look of hand painted doors, our creative designers can create a space that is truly personalized and unique. These 2 photos demonstrate how vastly different a space can look with the use of varying finishes and door styles. If you're looking for a Classic feel, the use of posts, upper cabinets with lighting, staggered cabinets and open shelves can all contribute to that timeless spa feel. Those who like a Modern or Contemporary look, make use of stylish light fixtures, statuesque faucets and polished stone tops to complete your dreamy oasis!

AyA offers a wide variety of different door styles which are well suited for bathroom spaces. Our vast array of colours, species and finishes provide endless combinations. Creating your escape from life's hustle and bustle has never been easier.

AYA CLOSETS

All closet solutions are the same, or are they? AyA's closet line raises the bar by offering the distinguished furniture look of wood cabinetry specifically designed for the closet.

Imagine if you will, walking into your luxurious closet with the feeling of true craftsmanship and high design, all in rich, warm tones of maple, cherry, oak or exotic woods. Our mandate at AyA Kitchens is to bring the sophistication of our client's homes right into their closet. It allows our most discriminating clients to pamper themselves not only in their kitchens and spa bathrooms, but now in their closets as well.

Rather than the standard laminate and thermofoil offerings which dominate the contemporary closet market, AyA offers full closet solutions in a wide range of woods and finishes. The warmth and beauty of real wood is accentuated by our exclusive, state of the art UV cured finishing system which allows our designers to bring to life the ultimate dream closet. Function is also a priority with clever storage features: tilted shoe racks, jewellery drawers, tie racks, belt racks, built in laundry hampers and pull out wood or chrome drawers all contribute to bringing closet organization to a superior level.

AYA BUILT-INS

The versatility of AyA's cabinetry can be used throughout the home, with endless combinations of styles, species and finishes. Whether trying to create the right atmosphere or making a living space more organized, AyA can help with the right storage solutions.

Offices

Working from home has never been better. We help ease your hectic workday by making sure everything you need is at your fingertips.

Laundry

Organization and storage options are abundant in a laundry room designed by AyA. Maximize space and time in this busy room in your home.

Entertainment

Whether it's a game room, wet bar, or entertainment unit, AyA has the right cabinetry to keep the party going. The right cabinetry can help set the atmosphere for get-togethers with family and friends.

Library

Form and function are key elements of any AyA library. Our vast selection of woods and finishes make it easy to complement and display your literary favourites.
